

## Appendix 6

### Chronological Survey of Zonta Clubs (1919–2019)

#### Sources:

- *The Zontian*, which in the first decades, published an annual list of club presidents' addresses.
- Zonta International Directories
- Information from District Historians
- Information from Zonta International headquarters on some recent clubs. (Headquarters does not have a database of information on all clubs ever chartered).

#### How to understand this register:

- Clubs are listed chronologically by charter year, with one table for each year.
- Clubs are identified by their number, if known. It has not been possible to find club numbers for all clubs. Club numbers are generally, but not always, consecutive.
- The heading above each table gives the number of clubs chartered in that year, and the names of any new Zonta countries added, with consecutive numbers (e.g. "Clubs chartered in 1931: 6. New Country: Germany (5)" means that 6 new clubs were chartered in that year and Germany was added as the fifth Zonta country)
- Clubs are identified by their geographical region, country, state (where relevant), district and area, as at December 2019 (e.g. Ouagadougou D 18-2 means the Zonta Club of Ouagadougou is in Area 2 of District 18 in Burkina Faso, Africa).
- In instances where re-districting has meant a club has been allocated to a different district, the identifiers for both districts are listed. An extreme example is Guatemala City: D 10, Region III, D XIX, D22.
- Entries for clubs in the USA include the standard abbreviation for the states in which the clubs are located (e.g. Alabama = AL). A full list of abbreviations is included at the end of this document for reference.
- Numbers in brackets beside the year in the 'charter year' or 'closed' column indicate the month, if known (e.g. 1920 (11) means November 1920).
- The geographical region identifiers used, in alphabetical order, are:
  - Africa

- Asia
- Aust./NZ (Australia and New Zealand)
- Europe (all European countries plus Egypt, Israel and Turkey)
- Nth Am. (North America)
- Sth Am. (South America, including Central America<sup>1</sup>)
- The term “early districts” covers Zonta Districts 1920–1947. They are all in the USA (see *The North American Districts*). In 1947, the District Plan comprised 11 districts in North America. New districts were added subsequently. The district numbers refer to this plan, with the additions.
- Between 1947 and 1990, all districts were designated by Roman numerals (e.g. District V). Since 1990 Arabic numbers have been used to designate the districts (e.g. District 05).

**The columns in the tables below, from left to right, are:**

1. Charter year
2. Year of closing /disbandment (either because of a club decision or because obligations were not met)
3. Club number
4. Club name (including state where relevant, district, and area)
5. Country
6. Geographical region
