MISSION
Zonta International is a leading global organization of professionals empowering women worldwide through service and advocacy.

VISION
Zonta International envisions a world in which women’s rights are recognized as human rights and every woman is able to achieve her full potential.

In such a world, women have access to all resources and are represented in decision making positions on an equal basis with men.

In such a world, no woman lives in fear of violence.

As of 31 May 2022
Dear Zontians and Supporters of Zonta,

In the 2020-2022 Biennium, our committed donors contributed more than US$5.3 million to support Zonta International’s projects and programs and the endowment funds. This outstanding generosity not only allowed Zonta to build better lives for women and girls now, but also helped ensure that we can continue to provide for future generations of women and girls.

I am eager for you to read about how the Zonta Foundation for Women made a difference in the lives of women and girls in the last year and throughout the biennium. My wish is that the progress and personal stories shared in the next pages will make you feel good about your support of the Foundation and inspire you to continue partnering with us as we empower women and girls through service and advocacy.

I am deeply grateful for your generosity and loyal support of the Zonta Foundation for Women. We could not make any progress without you. Thank you, in all sincerity, for everything you do to help us achieve our mission.

Warmest regards,

Ute Scholz
President, 2022-2024
Zonta Foundation for Women
“I am very proud to have been selected as an Amelia Earhart Fellow. … We need all solutions available to tackle climate change, and I am very aware that one such solution is the empowerment of women. Indeed, investing in underprivileged women’s education is the most efficient method to break the cycle of intergenerational poverty.”
—2021 Amelia Earhart Fellow
Caroline Houriet, France and Switzerland

“I am so grateful for the Zonta International YWPA program as it really encourages you to go the extra mile and recognizes your work in the field of social service and advocacy. Being an international recipient of the Zonta YWPA Award has given me an opening to start in my own small way and I am super excited.”
—2021 Young Women in Public Affairs Awardee Tehani Chandrasena Perera, USA and Sri Lanka

Through Her Health and Dignity, Our Priority, a safe space was established in a health facility in Timor-Leste to provide essential health services to gender-based violence (GBV) survivors, and family support centers in Papua New Guinea expanded to provide GBV survivors with specialized services.

About 625 out-of-school girls in Madagascar benefited from catch-up classes and were provided with school supplies and learning materials through the Let Us Learn program.
Zontians have come together to provide the necessary resources to help women and girls realize their potential. Through their generosity, our supporters are building a better world for all women and girls.

“Receiving the scholarship gives me the validation that I obtain the required abilities and skills to be a leader in the field of information technology [and] it confirms that I have what it takes to represent successful women in technology.”

—2021 Women in Technology Scholar Amani Abusafia, Palestine

“Growing up in a society with a strong gender prejudice, I was raised to believe that it is undesirable for a woman to prioritize her career aspiration over her family. … The JMK Women in Business Scholarship will be a valuable support for me as I continue to pursue my goals … and continuously prove that women can achieve much more than what we are told to believe.”

—2021 Jane M. Klausman Women in Business Scholar Linh Tran, Vietnam and Finland

The Adolescent Girls’ Health and Protection project in Peru reached 8,534 girls by strengthening essential adolescent health care services impacted by COVID-19.

Nearly 2.6 million adolescent girls (aged 10–19) received life skills and comprehensive sexuality education through the Global Programme to End Child Marriage.
Building a women-led future through educational and professional advancement

Since its earliest days, Zonta International has advocated for women in the workplace. Today, our four education programs support women in the traditionally male-dominated fields of aerospace, business, public affairs and technology.

Thanks to our generous donors, the Zonta Foundation for Women has provided more than US$14.2 million to women and girls in these fields through the Amelia Earhart (AE) Fellowship, Jane M. Klausman (JMK) Women in Business Scholarship, Women in Technology Scholarship and Young Women in Public Affairs (YWPA) Award.

From June 2021 to May 2022, the Foundation contributed US$726,000 to support 118 women and girls in pursuing their educational and professional goals.

**Amelia Earhart Fellowship**
US$360,000 awarded to 36 women from 22 countries

"I am honored to receive this award for my research. I strongly believe in the causes that Zonta advocates for, and this award is a truly amazing way to raise awareness about the lack of representation of women in science fields. Being a woman in aerospace engineering can be challenging but I hope my story will inspire more young women to face this challenge."

—2021 Amelia Earhart Fellow **Manuela Sisti**, Italy

Learn more about the AE Fellowship at zonta.org/aefellowship.

**Jane M. Klausman Women in Business Scholarship**
US$108,000 awarded to 30 women from 24 countries

"Coming from a marginalized background myself, I've always been accountable for managing my university finances by hustling for scholarships and taking multiple part-time jobs. It is often stressful to juggle both academic and professional life. This scholarship will help me to pursue a master's in finance and investment after my undergraduate degree without any financial constraints. Thus, I can focus more on developing my practical investment understanding and sharpening technical skills that can have a ripple effect on uplifting other women through investment opportunities.”

Learn more about the JMK Women in Business Scholarship at zonta.org/jmkscholarship.

**Women in Technology Scholarship**
US$160,000 awarded to 20 women from 12 countries

"Scholarships like this encourage more women in the technology field and I am very honored to be a recipient. Being awarded this scholarship has given me the motivation I need to maintain my strong academic record, pursue my degree, and has given me the inspiration to work hard to ensure that I make my own contribution to the world. Thank you for your confidence in me, and trusting me enough with the responsibility to be a good ambassador of the Zonta International Women in Technology Scholarship.”

—2021 Women in Technology Scholar **Rubie Targema-Takema**, Nigeria

The Women in Technology Scholarship is now the Women in STEM Scholarship, which will be offered in 2023 for a third pilot cycle. Learn more at zonta.org/womeninstem.

**Young Women in Public Affairs Award**
US$98,000 awarded to 32 women from 17 countries

"Thank you for this incredible honor and the generous support for my higher education. This recognition means so much to me and will greatly help me in my educational pursuits. This award has encouraged me to continue my work with public affairs while pursuing higher education and will significantly aid me in covering the cost of school.”

—2021 YWPA Awardee **Leila Johnson**, USA

Learn more about the YWPA Award at zonta.org/ywpaaward.
Building stronger health care systems for adolescent girls in Peru

The Adolescent Girls’ Health and Protection project in Peru seeks to guarantee the rights of indigenous and rural adolescents, especially girls, in Huancavelica and Ucayali and respond to their health needs by preventing pregnancy, addressing mental health concerns and providing protection from violence. COVID-19 left Peru in an extended state of emergency, which greatly impacted schools and health services and increased reports of domestic violence and adolescent mental health issues.

Despite these challenges, in 2021, UNICEF, with the support of Zonta International, achieved the following results:

- Strengthened essential adolescent health care services impacted by COVID-19, reaching 13,408 adolescents (8,534 girls).
- Developed technical guidelines for the prevention and response to cases of violence that occur in health establishments.
- Launched a virtual course for health personnel on the provision of online mental health counseling for children, adolescents and their caregivers in the context of school reopening and the return to face-to-face classes.
- Completed the virtual phase of the in-service training program for health personnel.
- Provided remote support to 169 participants to improve their plans to strengthen comprehensive adolescent health care in their establishments.
- Developed a plan to improve the reporting system for school violence cases to ensure access to better data.
- Launched the diploma course on comprehensive adolescent development in November 2021; by February 2022, 82 participants had completed the third module.
- Designed an instrument that schools can use to monitor progress on improvements in school coexistence and the reduction of violence.
- Promoted the improvement of the mobile application used to report cases of violence at school and planned to disseminate a child-friendly version of the app.

Zonta has supported Adolescent Girls’ Health and Protection since 2020 and will continue to contribute to its success in the 2022-2024 Biennium. To learn more about this project, visit zonta.org/peru.
Building violence-free lives for women and girls in Papua New Guinea and Timor-Leste

Lack of a survivor-centered approach is a key challenge in the delivery of gender-based violence (GBV) response services in the Asia-Pacific region, including in Papua New Guinea and Timor-Leste. Her Health and Dignity, Our Priority: Strengthening Services for Survivors of Gender-Based Violence aims to strengthen the capacity of GBV response sectors, particularly health, to ensure provision of quality and timely services in adherence to GBV survivor-centered principles.

Though the project faced significant implementation roadblocks due to COVID-19, natural disasters and local political upheavals, in 2022, UNFPA, with Zonta’s support, achieved the following results:

**Papua New Guinea**
- Completed baseline assessment of family support centers.
- Expanded family support centers in Milne Bay to provide specialized services for GBV survivors.
- Developed an action plan with health authorities in Milne Bay to identify key priorities and support with adequate and sustainable Provincial Health Authority funding for the family support centers.
- Conducted cascade training to build capacities of health staff on survivor-centered care to GBV survivors in Milne Bay.
- Strengthened capacity and functioning of the GBV referral system and case management mechanism.
- Developed information, education and communication materials for awareness raising on GBV.

**Timor-Leste**
- Conducted a comprehensive assessment of the health sector capacity to respond to GBV in Liquica municipality.
- Developed, in partnership with Ministry of Health, a national comprehensive competency-based in-service training package for health care providers and managers to address GBV.
- Conducted an orientation workshop to GBV service providers on referral pathway and case management to ensure a strong multi-sectoral response to GBV in Liquica municipality.
- Conducted community awareness activities in Liquica municipality.
- Conducted preparatory work for the establishment of a safe space in Liquica Municipality.

Zonta has supported Her Health and Dignity, Our Priority since 2020 and will continue to contribute to efforts to address violence against women and girls in Papua New Guinea and Timor-Leste in the 2022-2024 Biennium. To learn more about this project, visit zonta.org/PNGTimorLeste.
Building girls’ access to learning opportunities in Madagascar

From 2020 to 2022, Zonta International supported the third phase of UNICEF’s Let Us Learn program in Madagascar. Designed to empower the most vulnerable girls in the country through equitable access to quality learning opportunities, Let Us Learn targeted children in the regions of Androy and Atsimo Andrefana who were transitioning from primary to lower secondary cycle and supported them to complete lower secondary school.

Phase III achieved the following results:

- Construction of two classrooms, to benefit at least 80 children per year.
- 1,200 (52% girls) out-of-school children benefited from catch-up classes and were provided with school supplies and learning materials.
- 800 children (59% girls) were enrolled in school during the reporting period, thanks to the conditional cash transfer (CCT) program supported by Zonta International.
- 14 school personnel (principals and teachers) and 112 students (57 boys and 55 girls) of the 14 lower secondary schools have been trained, and the development and implementation of children’s clubs has been supported.
- 54 trainers of trainers (31 in Androy and 23 in Atsimo Andrefana) and 122 school principals (108 men, 14 women) have been trained to become trainers themselves and learned how to carry out pedagogical supervision.
- 742 science teachers in Atsimo Andrefana (539 men and 203 women) benefited from pedagogical training to prepare and lead teaching sessions, to design and create adapted teaching materials for practical experiments, and to accompany students through the teaching/learning sessions.
- Eight monitoring and technical support missions were conducted to strengthen the capacity of regional education directors to plan, carry out and monitor educational activities.

Zonta ended its partnership with Let Us Learn in 2022 but continues to support students in Madagascar through the Engaging Girls on Climate Change program. To learn more about the new project, visit zonta.org/MadagascarClimateChange.
Building brighter futures by empowering girls to say no to marriage

Though child marriage has declined across most regions in the last 25 years, prior to the COVID-19 pandemic no region was on track to meet the Sustainable Development Goal target of eliminating child marriage by 2030. However, now, up to 10 million more girls will be at risk of child marriage in the next decade due to COVID-19.

The UNFPA-UNICEF Global Programme to End Child Marriage, which Zonta has supported since 2018, made several adjustments in the wake of COVID-19, including using virtual methods with beneficiaries, adjusting programming, reallocating budgets and more. With these adjustments, the Global Programme achieved the following results in 2021 with the support of Zonta International and other partners:

- Nearly 2.6 million adolescent girls (aged 10–19) received life skills and comprehensive sexuality education. This number includes vocational training and start-up capital for small economic investments for some girls across the 12 Global Programme countries.
- Almost 16 million community members, including adolescent boys and girls, were engaged in meaningful community dialogues on child marriage, the rights of adolescent girls and gender equality.
- Addressing harmful masculinities and gender norms was a key focus for the Programme, with more than 1.1 million boys and men engaged in dialogues and education sessions.
- More than 55 million individuals were reached by traditional mass media and social media messaging on child marriage, the rights of adolescent girls and gender equality.
- Dialogues with traditional and religious leaders and other community influencers was a key approach, with more than 163,000 people engaged in meaningful discussions and consensus-building to end child marriage.
- Currently, 6,067 service delivery points are receiving support to provide quality adolescent responsive services that meet minimum standards.

Zonta has supported the Global Programme since 2018 and will continue to contribute to its efforts in the 2022-2024 Biennium. To learn more about this project, visit zonta.org/gpchildmarriage.
Zonta Foundation for Women Supporters

The Zonta Foundation for Women is grateful to all Zontians and friends of Zonta International around the world for generously supporting our educational programs and international service projects funded through the Foundation each biennium, as well as the Amelia Earhart and general endowment funds, which provide long-term support for Zonta's life-changing work. Together, we have worked to empower women and girls worldwide and change their lives by improving their health and socio-economic status; creating opportunities for vulnerable and excluded girls to realize their rights to an education in a secure and protective environment; working to reduce early marriage and early pregnancy; and enabling women to further their educational and career goals, while ensuring that talented women are given opportunities to succeed. We are deeply thankful to the following individuals for their gifts to the Zonta Foundation for Women from 1 June 2021–31 May 2022. We recognize the following donors for their cumulative lifetime gifts to the Foundation.

Mary E. Jenkins, founder of one of the nine original Zonta clubs and the first president of the Confederation of Zonta Clubs, blazed the trail for generations of women. To honor her leadership, the Zonta Foundation for Women’s planned giving society was established in her name.

Like Mary, those who make provisions for Zonta in their estate plans are creating a legacy dedicated to empowering women and girls. We are grateful to the individuals listed below who have entrusted their legacy to help Zonta to continue to improve women’s lives, their children’s lives and the communities in which they live and work.

We invite you to add your name to the growing list of Zontians who have already designated part of their estate to the Zonta Foundation for Women. Everyone who informs us of their provision of this kind will become a member of the Mary E. Jenkins 1919 Society.

To learn more about the Mary E. Jenkins 1919 Society, visit zonta.org/plannedgiving.

The Margaret A. Cargill Foundation Employee Matching Fund (Tricia Scrivner)
US Bank (Michelle Wright, Lori Rebischke)
2022 Fiscal Year—Financial Review
The Zonta Foundation for Women 2022 fiscal year ended on 31 May 2022, marking the end of the 2020–2022 Biennium. While COVID-19 impacted all aspects of the organization including program delivery, fundraising and investments, the strong commitment of our members ensured a continued inbound flow of donations to our Foundation. While the Foundation’s financial performance was affected by investment losses and negative investment returns smart actions were taken to redefine the investment policy and these strategies resulted in our investment performance faring better than market averages. Overall, the organization continues to be financially sound and on the right path.

Financial highlights for the Zonta Foundation for Women

CONTRIBUTIONS
- Continued strong support from donors, who contributed US$2.4 million (2021 US$2 million) for our international service and education programs, despite the pandemic impacting fundraising activities.
- Endowments continued to grow through contributions and planned giving of US$800,000 in 2022 (2021 US$300,000).
- All contributions were tracked by fund to ensure 100% of donations are only used for international projects and educational programs.
- Zonta has retained its GuideStar Platinum rating and met all Better Business Bureau Wise Giving Alliance and Charity Navigator criteria, which is critical to ensuring the confidence of existing and potential donors.

PROGRAMS
- Continued support to our partner projects (Global Programme to End Child Marriage, Let Us Learn Madagascar, Adolescent Girls’ Health and Protection in Peru and Her Health and Dignity, Our Priority), and educational programs of US$726,000 (2021 $4.6 million).
- 118 educational scholarships, fellowships and awards were provided to women and girls in 45 countries.

INVESTMENT PERFORMANCE
- The 2022 fiscal year has been challenging for investment markets with investment returns globally showing significant declines.
- Our investment advisers have worked closely with the organization to ensure our funds are invested and managed in line with the board-approved investment strategies.
- Investment returns declined during 2022 with annualized returns across the portfolio ranging from negative 1.53%2 for the general Endowment and Amelia Earhart Endowment funds to negative 3.36%3 for the long-term investment funds. The five-year outlook indicates a positive 5%+ return.
- As a result, the 2022 fiscal year includes negative investment income of US$500,000 (compared with positive investment income US$3.3 million in 2021). The Zonta Foundation for Women continues to maintain a strong overall financial position with enough assets to cover our obligations and to ensure the long-term resilience of the organization.

Respectfully submitted,
Souella Cumming
Treasurer/Secretary, 2022–2024
Zonta Foundation for Women

1 The majority of program expenditure occurs in the first year of the biennium
2 Based on data supplied by Zonta’s financial advisors, unaudited
3 Based on data supplied by Zonta’s financial advisors, unaudited
